

PreWash express

Express precleaner

Highly concentrated, phosphate-free, high alkaline precleaner for prewashing cars and trucks. The combination of high-quality complexing agents and special surfactants dissolves even the most stubborn dirt such as insects, bird droppings, environmental and rim dirt extremely quickly and is therefore ideally suited in particular for carwashes with short reaction times (eg express washing systems) as well as alkaline washing bay cleaning. Optimally suited as well for biological service water treatment plants. VDA conform to class B: reaction time max. 1 min, max. application concentration 1:100

page 1 of 1

Areas of use

Cars, commercial vehicles, construction machines, steel rims and alkali-resistant painted aluminium rims, washing bay floors/walls.

Recommendations for use

Depending on the dirt accumulation: precleaning: 1:30 to 1:100. Rim cleaning: 1:4 to 1:20. Apply over whole surface and after max. 1 min rinse off thoroughly with a high-pressure cleaner. Washing bay cleaning: 1:2 to 1:15. VDA conform to class B: reaction time max. 1 min, max. application concentration 1:100
